## HELD FOR GRAND JURY

**Sergeant Scott and Officers Kerns and Campbell Arrest Young Men For Violating Prohibition Law.**

About 2 o'clock yesterday morning Sergeant Scott and Officers Kerns and William Campbell witnessed a flagrant violation of the prohibition law upon the part of two young men, who were in a King street lunch house. R. Groves and T. Strickabar, young men from Washington, were in the place when Groves proceeded to an ice box, and took therefrom a pint bottle filled with a "cocktail," combination. He approached Sergeant Scott and invited him to take a drink. The invitation having been refused, Groves approached Strickabar and asked him to test the contents of the bottle. Sergeant Scott shook his head at Strickabar to warn him, but the latter paid no attention to him, and drank from the bottle. The two men were than placed under arrest.

The case came before the Police Court this morning. After the officers had made their statements, Groves alleged that the liquor did not belong to him, but to another man who had placed it in the ice box and subsequently left the lunch house. The officers controverted this statement, and alleged that Groves acknowledged the ownership of the liquor on the way to the station house.

Justice Caton held both men for the action of the grand jury. He fixed Groves's bond at $250, but released Strickabar on his own recognizance to appear when wanted.

The desk of the Police Justice was graced with three bottles this morning. One contained "cocktail" and the others gin.

Officer Zell had arrested Frank Cross, colored, for being drunk upon the streets, and Officers William Campbell and Kerns had brought in William Reamer and Walter Meekins, both colored, upon similar charges. They were fined $5 each. All the accused alleged they procured their liquor in Washington.

### RAILROAD ACCIDENT

**Causes James Bailey of This City to Lose His Left Leg**

The Potomac railroad yard was the scene of an accident yesterday morning about half-past seven o'clock by which James Bailey, of 1303 King street Alexandria, was so badly injured that he had to have his left leg amputated above the knee and the toes taken off his right foot.

Mr. Bailey is about 22 years old and was in the employ of the Southern railroad company as brakeman. He caught his foot in the guard rail in some manner, was unable to extricate it in time and was run down by a caboose which was being shifted from one track to another.

He was removed to the Alexandria hospital where the operation was performed by Dr. Wm. M. Smith and Dr. M. D. Delaney, Mr. Bailey suffered from the loss of considerable blood, but the hospital attendants reported him to be in as comfortable a condition as could be expected this morning with the chances in favor of his recovery.

On the sixth of last month a year ago Bailey fell from the top of a freight car, at which time he sustained a fracture of the skull and other injuries which confined him in the hospital for several weeks.

## EARLY MORNING ARREST

**Police Make Descent Upon Suspected House During Wee Sma' Hours Yesterday Morning.**

Sergeant Scott and Officers Kerns Williams and Campell, about 2 o'clock yesterday suddenly appeared in a house conducted by Mrs. Wheelock, on the south side of Prince street, near Fairfax. They arrested the proprietress and Helen Allen, Millie Saunders, Thomas Gaines and G. W. Hewett, These parties were conducted to the station, where they left collateral, amounting to $90, for their appearance before the Police Court this morning. In the meantime the parties employed counsel and requested that the case be continued until next Thursday morning. This was granted.

Mrs. Wheelock has been conducting a boarding house at this place for sometime. The neighbors have often expressed their suspicions that lasciviousness was also carried on within the place, but as nothing positive could be produced by any of those who complained,the police bided their time until they thought they could procure evidence so that the suspicious house might be raided.

The inmates, according to the police, were caught unawares yesterday morning, and while everything was serene both within and without the house, there was a rude awakening. The officers succeeded, according to their statements, in surprising certain inmates in flagranti delicto, while others, they say suddenly aroused, managed to change their quarters in time to baffle the officers.

A charge of conducting a disorderly house was placed upon the blotter against Mrs. Wheelock, and that of living in adultery against the two other women and the two men.

### FALL OF MONASTIR

**Macedonian City Retaken by Allies After Long Seige.**

London, Nov. 20— Monastir has fallen to the allies.

To the strains of the Serbian national hymn, the remnant of King Peter's army at 8 o'clock this morning marched through the shell-riddled gates of the Macedonian city, whence a year ago they fled in panic and hunger before the great Teuton-Bulgarian steam roller. At the head of the victorious troops rode Crown Prince Alexander, rejuvenator of the little Balkan kingdom's soldiers, and side by side with them marched French regiments, with whose aid this first great step toward the reconquest of Serbia was accomplished.

Here and there in the long line of the triumphal march a row of Muscovite "Tchawos" towered above the helmets of steel. Their owners were members of the Russian contingent which also co-operated in the encirclement of the great Bulgarian stronghold.

The city lies 85 miles northwest of Saloniki.

Military experts concede that it is a victory of moral rather than strategic importance. Had the blow been struck a month or two earlier, it is believed that it would have tremendous effect on the whole military situation in the Balkans.

Coming at this late date, however, on the eve of winter, it cannot be expected to usher in a headlong advance northward.

Its influence on the chief aim of the allied Macedonian campaign namely, the cutting of the Orient Railway, is nil.

The distance from Monastir to Nish, where the great railroad swings eastward into Bulgaria, is no less than 165 miles.

Innumerable mountains impassable during winter block the advance.

### DRY ISSUE NEXT IN LINE

**Prohibition Forces Will Press For Decision In New Congress**

Washington, Nov. 20—It cannot be doubted that prohibition as a national issue is about to resume its place at the top of the list of domestic problems to which Congress and the American people will address themselves during the next few years.

If there had been no war in Europe and no grave international complications had arisen out of that war prohibition would have been a leading issue in the campaign which has just closed. The ground-work was laid four years ago for a prohibition drive, first in the national conventions of this year, and afterward in the election itself.

The program was to seek pledges from both the major parties to the nation-wide prohibition amendment. Failing in this, the "drys" proposed to carry the fight into the individual Congressional districts and into those states which elected Senators. The purpose of the plan was to assure a two-thirds dry vote in both branches of the Sixty-fifth Congress.

Including those states which have just acted favorably upon prohibition measures, there are now 25 "dry" states out of 48. It is estimated that 60 per cent. of the entire population and 85 per cent. of the country's area are now under prohibition laws. This includes the sections of many states which have gone "dry" through county or municipal option.

### TIDAL WAVE AT MARSEILLES.

**Many Vessels Founder While Battling With the Elements.**

Paris, No. 20.— Extraordinary weather conditions prevailing in France in the last 48 hours culminated Saturday in a tidal wave in the Gulf of Marseille, on the Mediterranean coast, in which many vessels foundered, and disastrous gales on the southwest coast of the Atlantic Ocean.

According to M. Angot, director of the weather bureau, the fluctuations of the barometer yesterday beat all the records of 60 years for quick changes. From 721 millimeters, which already was 39 below normal, it dropped 44 millimeters in 36 hours.

Snow fell heavily along the British battle front and there were heavy rains and high winds in Paris and in other parts of France.

At Marseille all the cabins on Catalan Beach were carried away and the high waves inundated Corinche road, stopping the street cars.

The storm beat all records for 20 years on the Mediterranean coast.

London, Nov. 20—A renewal of the heavy gales which have visited the British coast recently caused a heavy loss to shipping Saturday and Sunday. Four large outward-bound steamers were compelled to return to Queenstown, including the Gisla, which lost her propeller and was laboring in the tremendous seas, and only with the greaterst difficulty were able to make port. The other steamers were badly battered, having lost boats and being otherwise damaged.

Sunday morning a large number of steamers and sailing vessels were driven ashore at different points.

## ALEXANDRIA SOLDIERS

**Senator Swanson Endeavoring to Have Virginians Sent Home Before Christmas.**

Relatives and friends of the members of the Alexandria Light Infantry, which command left this city last summer for the Mexican border, will be glad to know that earnest efforts are being made to have them ordered home, and there is reason to believe that they will be enabled to eat their Christmas dinner in old Alexandria.

Senator Swanson was in conference with Secretary of War Baker for an hour Saturday, urging that steps be taken by the War Department to order the return of one, if not all, the commands of the Virginia National Guard, now on the border.

The senator reminded Mr. Baker, of the announced policy of the war Department to send home the State troops in the order in which they were ordered to the border, that is, to send back first those which went South first. The policy, he said, had not been carried out with regard to the Virginia Militia. In reply, Secretary Baker stated that where a National Guard command formed a part of a brigade, a division or other tactical unit, it was not always possible, to follow the general rule, This was the reason why some of the Virginians who expected to leave there now, are still in the field.

Speaking of the situation after his visit to the War Department. Senator Swanson said, "Secretary Baker implored our people to have patience, saying that the military necessities were the first consideration, but that he hoped soon to have all the state troops back at home. I myself came away from the department with the impression that our boys will be home before Christmas, if not before Thanksgiving."

### GYPSY SMITH IS COMING

**Evangelist Preparing to Commence Revivals Meetings in Washington in January.**

It was stated in the Gazette a few weeks ago that Rev. Gypsy Smith, jr., would probably reappear in the near future near the scenes of the campaign last September. The evangelist in a statement made to a representative of the Gazette at the time said he had been invited to hold meetings in Washington next February, and that twenty-eight Presbyterian Churches of the District of Columbia had united in the request. At that time, however, no positive statement could be made, as the matter had not fully crystalized. It can now be stated, however, that the plans have matured ,and that Mr. Smith will be in Washington the latter part of January.

This will be welcome news to many persons in Alexandria, who will undoubtedly avail themselves of the opportunity of attending these exhilarating evangelistic services. The continuity of the capital city, being twenty or twenty-five minutes' run from Alexandria, enables all who desire to be present.

The meetings are to be held under the auspices of the Presbyterians of the District of Columbia, acting through the Presbytery of Washington city, and already the organization leaders, led by Rev. Dr. John Carpenter Palmer, the moderator, are completing plans for the big evangelistic effort in view.

At the present time the special committee in charge of the selection of a location is actively engaged in the effort of securing a large, centrally located lot for the erection of the tabernacle, which, it is expected, will seat about 3,000 people. Already the financial arrangements have been completed and it is expected that within a few days the location being sought will have been selected and definite arrangements for the beginning of work on the tabernacle commenced.

Evangelist Smith, who is now holding a big evangelistic campaign in Pennsylvania, was in Washington several days ago conferring with leaders in charge of the arrangements for the campaign in that city.

Within a few days he plans to go to Connecticut for another series of services and, it is understood, will not be in Washington again until he comes to begin the local campaign late in January.

## GLASS WORKS TO OPEN

**Old Dominion Company Announces That Factory Will Resume Operations in About Two Weeks.**

The industrial situation in Alexandria is improving. That was made evident on Saturday when the Old Dominion Glass Company announced that they would resume operations at their factory on Henry and Fayette streets in about two weeks. The announcement will carry good news not only to the two hundred people to whom it will mean employment, but to the people of the entire city as well, as the plant has been shut down for the past eighteen months.

The manufacture of bottles for drugs and various other lines of business will carried on and the indications are that a larger business will be done by the firm than ever before.

The pants factory opened at 317 King street a short time ago by Mr. H. S. Marine of Washington, is now giving employment to some twenty-five people, another factory is advertising for help with which to open still another manufacturing establishment, and it is possible that a Baltimore firm may decide to locate a branch here which will furnish work for quite a large number.

The Chamber of Commerce is to be congratulated upon the efforts its members are putting forth in quest of new enterprises for the city. With the right kind of co-operation on the part of the citizens generally, there is every reason to believe that Alexandria is soon to take on a new life and energy along industria llines.

### FLIGHT RECORD BY GIRL

**Miss Ruth Law Goes 590 Miles in Aero Without Stop.**

Binghamton, N. Y., Nov. 20—Attempting a nonstop flight from Chicago to New York, Miss Ruth Law, guiding a biplane of the military scout type, shattered all American long distance aviation records for a single flight yesterday when she flew from Chicago to Hornell, N. Y., a distance by railroad of about 660 miles, bettering by about 100 miles the record made by Victor Carlstrom on November 2.

A delay start and a cross wind that cut down her speed and forced her to descend to replenish the gasoline supply, were responsible for her failure to reach New York city, Miss Law said after her arrival at Binghamton yesterday afternoon at 4:20 o'clock.

Miss Law covered a distance of about 785 miles in 6 hours and 50 minutes, time being deducted for the descent at Hornell. The first 662 miles, the distance by rail between Chicago and Hornell, was made without a stop.

Miss Law left Chicago at 8:25 a. m. Eastern time.

She made an average speed of 100 miles an hour at an altitude of about 6,000 feet. During the last 200 miles before the stop at Hornell, a sharp cross wind blew, with the result that her gasoline tank was soon emptied. She glided two miles into Hornell at 2:0? p. m.

After replenishing her gasoline Miss Law flew the remaining 117 miles to Binghamton without mishap. Here darkness overtook her and she was forced to descend. She intends to continue to New York today.

New York, Nov. 20—Ruth Law, a smiling little American, took her place as the premier woman aviator of the world today, when she equaled the American record for cross-country flying.

She landed at Governor's Island at 9:38 a. m. having flown 950 miles from Chicago in an old-style exhibition aeroplane.

## GOVERNOR'S PROCLAMATION.

Governor H. C. Stuart, following the course of President Woodrow Wilson, calling upon the people of the United States to observe Thursday, the 30th instant, as a day of thanksgiving, has issued a call to the people of the Old Dominion to unite with the citizens of other states in properly observing the day.

Virginia has much for which to be thankful. Although many years have elapsed since the Old Dominion emerged from the horrors of war and the perilous times subsequent to the close of hostilities, dim memories still exist of the trials incident to reconstruction. The state finally cast off carpetbag and military rule but a few years later it was confronted with conditions far from pleasant by defection in the democratic party and the fusing of the discontented with the party which had done so much to keep down our state.

Thirty-three years ago the Old Dominion shot from the partial eclipse and has rolled on brightly ever since.

The Governor calls our attention to present conditions, for which we should be thankful and says:

"Since we as a people last united in giving thanks, another year of peace, prosperity and collective growth and advancement has passed. Nature has been bountiful and the seasons have been propitious. Our commerce has greatly increased, our material wealth has grown enormously, our excellent public health is maintained, our advancement along educational and philanthropic lines has been steady. We are still free of the miseries which are the lot of our fellow men in the Eastern Hemisphere. Yet in no spirit of exultation should we approach Thanksgiving Day of 1916. Let us pray above all to be delivered from that mental attitude which would thank the Almighty that we are not as other men are. This is a time for humility in our giving of thanks, a time for consideration as to the uses to which we should put our material prosperity, and a time for pondering if we as a people are compassing the only true greatness—that of the mind and the heart."

## POLICE ON THE JOB

The members of the police force of Alexandria are receiving the credit due them in their efforts to enforce the prohibition law of the state. Most of the present force are young men, and they are using their eyes to good advantage to bring to the Police Court every person found violating the provisions of the statute.

They had five prisoners before the tribunal this morning. Two were white and three colored. They placed three bottles, upon the desk. One was nearly full of a tempting "cocktail" combination. The other two contained gin, the stimulant generally used by negroes. The two white men will be made to face the grand jury, as they were drinking in a public place. The negroes will pay five dollars each or serve twenty days in jail, subject to the roads, as they were classed as "drunks."

The authorities are earnestly endeavoring to keep liquor out of Alexandria, as was the intention of the framers of the present law, and those who persist in taking the risk do so upon their peril.

The practice of drinking upon trains, boats, club houses, in the streets or alleys, in short, in any place save the homes of the owners of the liquor, is risky, as the parties, if caught, will be sent to the grand jury. Delinquents unable to furnish bond, will, of course, go to jail.

The police are gradually bringing about better conditions, especially on Saturday nights. But three persons, the trio being negroes, were arrested night before last, as noted. This shows a marked improvement when contrasted with the happenings on Saturday nights previous to the enforcement of the prohibition law, when many persons, white and black, regarded Saturday night as Hamlet without Hamlet were they to go to their homes in a sober condition.

## ACCIDENT TO DEUTSCHLAND

Danger lurks where we least expect it. The ancients taught this truth in a fable. A doe had lost one eye; hence it fed near the sea shore with its blind side to the waves not supposing anything could injure it from that direction. But a hunter came along in a boat one day, saw the unsuspecting animal and killed it with an arrow.

Captain Harrison, who commanded the Great Eastern in 1858, when the leviathan was put in commission, had crossed the ocean many times. He was subsequently drowned from a yawl boat in the harbor of Liverpool.

It seems a little singular that the German submarine Deutschland, which has crossed the Atlantic three times and evaded England's great war fleets and her numerous submarine traps should suffer her only mishaps at a point where she might be supposed to be most secure from danger.

## WILL LEAVE THE COUNTRY.

Theodore Roosevelt has forfeited his ticket to Salt River, and will soon start for other out-of-the-way places on the globe.

It is stated that the colonel will make a trip to the Fiji, Samoan and Hawaiian Islands in February, It is understood the Colonel chose these pacific islands with their rugged mountains and volcanoes.

The most realistic specimen of sculpture in the Corcoran Art Gallery in Washington is "Napoleon on St. Helena." The Corsican is soliloquising on the passing of earthly glory. Roosevelt on a far-away island in the Pacific may also be brought to realize the import of the saying, "Sic transit gloria mundi." It is said that the colonel expects to bob up serenely in 1920. Other orbs are expected to appear in the political heavens during the next four years, while some of the present planets will have waned ere another Presidential election.

## VIRGINIA NEWS

### Paragraphs Picked Up Here and There Throughout the State.

Randolph Meade, a well-known Danville tobacco manufacturer, was brought home last week from Kenbridge, where for several days he had been in a hospital suffering from injuries sustained in an automobile accident last Wednesday. Mr. Meade and W. B. Lewis, were on their way from South Hill Market to Kenbridge in a hired automobile. Three miles from Kenbridge the negro chauffeur drove out of the road to permit passage of another car. The car ran on treacherous sand and skidded, upsetting. Lewis and the chauffeur were thrown clear, but Mr. Meade was pinned down by the car, and was extricated by persons in the other automobile.

The engineer of a northbound freight train found yesterday morning the body of Carl Lee, 19 years old, of Danville, lying by the track near Brown Summit, Both legs were severed, but Lee was still living. The corpse was taken to Greensboro, N. C., Claim Agent S. C. Cunningham said that an open knife, not blood stained, was found by Carl Lee's body, Both men were mill operatives. The Commonwealth's attorney asked for a warrant, and Bray was convicted. For driving the car while intoxicated, he was fined $50.

Governor Stuart has issued the annual Thanksgiving Day proclamation, calling on the people of Virginia, to set aside Thursday, November 30, for the observance of the holiday.

## COMMISSIONER'S SALE.

S. H. LUNT, Auctioneer.
Saturday, December 2, 1916.

By virtue of a decree of the Circuit Court of the City of Alexandria, Virginia, entered on the 16th day of November, 1916, in the chancery cause of Edgar R. **Paragraphs Picked Up Here and There Throughout the State.**

E. Lee Trinkle, of Wytheville, who made the race for Congress against Congressman C. Bascom Slemp, in Ninth Virginia District, has made public the expenses incurred in his race. He spent a total of $6,838.76.

Sidney H. Bennett, for a number of years manager of the Standard Oil Company in Harrisonburg, died in the Leesburg Hospital, as a result of an automobile accident on Wednesday at Paeonian Springs, Loudoun County. Mr. Bennett's father-in-law, S. W. George, also was killed in the same accident.

Rev. W. Asbury Christian, D. D., will be appointed commissioner of Emory University, of Atlanta, for the Virginia Conference, with the task of raising the sum of $50,000 within the bounds of the conference to endow the chair of missions in the theological department of the university, according to rumors circulating last week among the assembled preachers at the Broad Street Church, Richmond, and confirmed by those who should be in the position to know The prophets were positive that the earlier report that Dr. Christian would be made conference evangelist was untrue.

After ruling that a presidential elector in Virginia is deemed, under the law, a State officer, Attorney-General John Garland Pollard has sent to each of the State's twelve electors a copy of the opinion, which was given at the request of Representative Carter Glass, national committeeman, and urged them, in view of the closeness of the presidential election, to file at once their expense accounts with the Secretary of the Commonwealth, as is required by the Virginia statute of all State officers. The law gives them until December 7, or thirty days after the election to file these accounts.

O. L. Shewmake, Commonwealth's attorney for Surry county, has been appointed by the State Tax Board as executive assistant of that body, succeeding Christopher B. Garnett, who is now chairman of the State Corporation Commission. Mr. Shewmake will assume the duties of his office in a few days.

While coupling cars on a Southern Railway freight train, northbound, at Arrington, Saturday, Brakeman Joseph G. Clifton, aged 28, of Charlottesville, was caught between two cars and almost instantly killed.

Evan R. Chesterman, since February 1913, secretary of the State Board of Education, resigned his office last week to follow the advice of physicians prescribing a protracted rest and freedom from all official responsibility. The board accepted the resignation and appointed in Mr.. Chesterman's place J. N. Hillman, superintendent of schools of Wise County.

## FOUR PERSONS KILLED

**Fearful Accident at Automobile Race In California**

Santa Monica, Cal., Nov. 20—Driver Lewis Jackson, and three other persons were killed Saturday in the seventh annual international prize automobile race, which was won in record-breaking time on the Santa Monica course by Johnny Aitkens, driving as relief for Howard Wilcox. The dead, besides Jackson, are:

Harold Edgerton, Los Angeles, spectator.

J. B. Jenkins, motion-picture camera operator.

Unidentified woman, lemonade vendor.

Jackson, a Los Angeles driver, on his thirteenth lap, swerved into one of the palm trees lining the course. The car uprooted the first tree it struck, overturned a lemonade stand, killing the woman in charge, crushed Jenkins against a second palm, which was broken off short and wrapped itself about a third tree. In this wreckage, Jackson was crushed and his body nearly cut in two. His mechanician, John Ghianda, was thrown out and escaped dangerous inujries. Edgerton was struck by flying parts of the wrecked car. He and Jenkins died an hour after they were taken to a hospital.

Wilcox was declared the official winner of the race and the new speed record of 85.55 miles an hour for the 403.248 miles of the course, will stand in Wilcox's name. Aitken's time, credited to Wilcox, was 4:42:47.

The winners of the first, second and third places all averaged better time than the former grand prize record of 77:22 made two years ago on the same course by Eddie Pullen.

## FURNISH AMMUNITION

**Berlin Newspaper Alleges Allies Obtain Half Their Supplies from The United States.**

Berlin, Nov. 20—Few things have made a deeper impression on German public opinion than the publication in the Lokal Anzeiger of statistics purporting to prove that the United States is now furnishing practically half the ammunition discharged by the French and English against the sons of the Fatherland.

"The supply of war materials furnished by the United States to the enemies of Germany is daily taking on larger proportions and is now 50 per cent of the value of the total exports from the port of New York, which represents half the total exports of all American ports made up of war materials," says the newspaper.

"The total of half the New York exports, according to September customs figures, which were made in declarations, is $270,000,000. Of these explosives, hand grenades and shells amounted to $70,000,000 smokeless powder to $70,000,000 and various items of ammunition to $10,000,000, a total of $150,000,000.

"In addition to these items of deathdealing instruments, the invoices include war and destructive tools directed against Germany to the value of many millions more. This statement included statistics from Philadelphia, Boston, Newport News and Bridgeport."

One hundred and fifty-nine persons were killed and many more or less seriously injured in a railroad wreck on the Inter-Oceanic line to Vera Cruz, between Dehesa and San Miguel, near Jalapa, on November 12, according to reliable reports received last night at Laredo, Tex., The wreck is said to have been due to the engineer running at too high a rate of speed over a dangerous part of the road.

Jay F. Hummer, aged 30, was perhaps fatally injured Saturday when his automobile plunged through a guard rail on the lower Delaware River road near Easton, Pa., and was saved from going into the canal only by striking a guy wire supporting a telephone pole. Hummer was hurled out of the machine and landed head foremost in the roadway. His skull is fractured. The automobile is said to have struck 16 of the rail posts breaking a number of them, before it finally crashed through the guard. When it came to a stop the front of the car was but a few feet above the surface of the water, and it hung at a dangerous angle.

### WOULD VOTE STATE "DRY"

**Organization Formed to Have Issue Passed upon in Kentucky**

Louisville, Ky., Nov. 20—Voters in Kentucky, where the yearly production of whisky exceeds 20,000,000 gallons, will be called upon to pass upon a State-wide prohibition constitutional amendment if the object of an organization formed here is attained.

Announcement was made today that the movement had been launched by a number of persons including members of the bar, business men, the president of a college and a former justice of the State Court of Appeals.

Dr. A. J. A. Alexander, of Woodford county, a philanthropist widely known in Kentucky, is at the head of the organization which, it was announced, excepts to affiliate with the Democratic party.

IN OUR great-great-grandfathers' time many New England families had a cask of rum in the cellar.

It was freely offered to guests (except children) and freely partaken of, even as coffee is today.

This old-time custom gradually passed out of existence, for our forefathers recognized it was harmful.

Another old-time custom—coffee drinking—is slowly passing in the same fashion and for the same reason.

The abandonment of coffee drinking is made easy nowadays by the use of *Instant Postum*, the pure cereal beverage with the coffee-like taste.

Unlike coffee, this purely American table drink contains no "caffeine" or other harmful substance.

*Postum* is now used daily in tens of thousands of the best of American homes where reason rules and health is valued.

THE NEW TEMPERANCE DRINK

**PABLO**

"You Can't Tell the Difference"

That is what they all say regarding Pablo, the new non-alcoholic beverage we are now offering to the trade.

Pablo is an unfermented beverage does not contain malt and is absolutely non-alcoholic. It is not a near-beer and should not be confused with the many so-called temperance drinks now being marketed that are really nothing more than fermented malt beverages, with a percentage of the alcohol extracted, the sale of which is liable to be accompanied by risk of prosecution.

Wherever Pablo has been introduced it has met with almost instant favor and popularity, proving to be a good repeater. As compared with other soft drinks, Pablo is in a class by itself—a drink with character and snap to it. It is of a sparkling amber color and has that pleasing hop tang that is a never-failing, never-tiring delight to the taste and which at the same time makes it a refreshing healthful and invigorating beverage.
